HARLEQUIN x Henry Holland

MARBLE

Marble is a signature of Henry Holland's ceramic style, translated into a large-scale panel wallcovering. Free-flowing and unrestricted by form, the organic composition of the design emulates the Nerikomi technique conveyed in Henry Holland's ceramics.

HANGING INSTRUCTIONS

This design is printed on one roll comprising of four panels, A, B, C and D. Each panel has a design repeat of 299.9cm. There is spacing between each panel on the roll. The total roll length is 13.35 metres.

The individual drops are indicated by a cut line for ease of hanging.

This wallcovering is printed digitally onto a non-woven base, which is strong and flexible, allowing the wall to be pasted rather than the substrate itself.

The wallcovering can be tailored to room height by removing any excess from the bottom of each length.

To achieve the best result we recommend the use of a professional decorator.
